CoBaTrICE
CoBaFaculty (The CoBaTrICE steering committee)

Meeting
Wednesday, October 1, 2014, 09:00-10:30 – CCIB, Barcelona

Present: HU Rothen (HUR), J Bion, V Fuhrmann, F Rubulotta, A Castellanos, D Phelan, M Maggiorini, G Sigurdsson
Excused: F Saulnier, A Batchelor, H Flaatten, N Weiler
Protocol: D De Boom

The minutes of the CoBa Faculty 4th meeting held on October 9, 2013 in Paris were approved as fair copy.

CoBaTrICE: Actual state
HU Rothen reminded the principle of CoBaTrICE and its purposes. He also reported on the updated version of SOPs and the ensuing elections. He welcomes the new elected member (V. Fuhrman) as well as five members, re-elected for a second mandate of three years. HUR himself has been re-elected for a second mandate of three years as chair of this committee. According to the SOPs, the committee welcome two NEXT representatives as well as the chairs of the Examinations, the e-Learning (when (s)he will be appointed), the Clinical Training and the SRG (when (s)he will be appointed) Committees.

Translation of Syllabus/Competencies
The Turkish version is approved by CoBaFaculty.

The syllabus is now translated ten languages: Croatian, Czech, Dutch, Flemish, French, Georgian, Italian, Polish, Spanish and Turkish. All translated versions are available on the website - [www.cobatrice.org](http://www.cobatrice.org) >Library >CoBaTrICE in other languages. All versions are based on CoBaTrICE V1.0.

Linking Competencies to PACT, EDIC, etc
Over the last few months and with support of PACT editorial board and examinations committee, a list linking CoBaTrICE competencies to PACT-modules and to the “blueprint” of EDIC has been produced. This list is available in pdf-format on [www.cobatrice.org](http://www.cobatrice.org). An electronic version will be implemented at the integration of PACT into the e-learning platform.

Report of the EBICM meeting
As per the updated version of ESICM SOPs, the chair of CoBaFaculty is de facto a member of the European Board of Intensive Care Medicine (EBICM). EBICM serves as link to the MJCICM (Multidisciplinary joint committee of Intensive care medicine), which is in turn a structure of UEMS (Union des Médecins Spécialistes).

EBICM / MJCICM met last Friday (September 26, 2014) in Barcelona to finalise the “Common Training Framework (CTF)” entitled “Training Requirements for the Core Curriculum of Multidisciplinary Intensive Care Medicine” in view to present this document to the UEMS Council that will be held in Granada on October 17-18, 2014, and to get the approval of the UEMS Council on the content. This represents a crucial step in the process of recognition of ICM at the European Union level.

In the CTF, the nearly completed list of competencies defined in CoBaTrICE can be found. The list comparing CoBaTrICE competencies (Versions 1.0 and 2.0) and the competencies as listed in the CTF-document is presented by HUR and discussed in details (attached). HUR mentions that the chair of MJCICM suggested to publish the final document, if approved by UEMS council, e.g. in a journal with focus on intensive care medicine.
Update of competencies list
Thanks to the suggestions made by the members of CoBaFaculty, CoBaForum, ESICM EC and other feedback, the list of competencies is now updated (attached, CoBaTrICE competencies V1.0 / 2.0). The attendees reviewed the proposed changes or amendments, and minor changes were added. HUR will send the updated list to all members of CoBaFaculty.
Once this updated list is approved by the CoBaFaculty and before publishing it on the website, the document will be submitted to the CoBaForum (and NTOs) to give them the opportunity to send their comments and to ask them whether they consider difficulties to implement these changes in their national training programme. It is planned to finalize the process by producing a document listing all changes and presenting thus the new Version 2.0.

ESICM education day
Not discussed due to restrictions in time

Any other business
---

Next meeting
Spring 2015: tba.
October 7, 2015, 09:00-10:30, Berlin (during ESICM annual congress)
